

Waiting for another seizure?

You may qualify for a research study of an investigational medication for the treatment of Epilepsy if:

- You are 16 to 75 years of age
- You have inadequately controlled partial onset seizures (2-40 per month)
- Taking 1 to 2 AED's (anti-epileptic drugs)

All Study related medical exams, office visits, and study medication will be provided at no cost to the patient. If you would like more information please contact The Neurological Institute's Research Department at

704-342-6014
